TRAFFIC ENFORCEMENT MODIFICATIONS DUE TO PANDEMIC DISEASE OUTBREAK

Approved By: Geoffrey Jones Chief of Police
CALEA 6th Edition Standard: 1.2.6; 61.1.2; 61.1.5

PURPOSE

The purpose of this special order is to provide guidelines for modified traffic enforcement during the COVID-19 virus pandemic disease outbreak. These guidelines may be used or revised to meet the special circumstances of future outbreaks or other special situations as needed. The following are reasons for the modification to our traffic enforcement guidelines:

A. To reduce the unnecessary exposure and contact with individuals during the pandemic disease outbreak.
B. Allow the Vehicle Stop Committee an opportunity to resume their work, which was disrupted due to the pandemic disease outbreak, to reduce disparities in traffic stop data while assuring we are policing more fairly.

POLICY

By order of the Chief of Police, during the pandemic disease outbreak and until further notice, officers of the Columbia Police Department (CPD) are directed to only conduct traffic stops on vehicles in which the operator is committing a HAZARDOUS MOVING VIOLATION.

An exception to this directive is if an officer has articulable facts that a person is a danger to the community, they can be stopped for reasonable suspicion other than a hazardous moving violation.

Every traffic stop conducted by a CPD officer, which does not result in an in-custody arrest, shall be concluded with a written warning or citation delivered to the operator.
