

GREENVILLE COUNTY
SHERIFF'S OFFICE

GO - 249

GENERAL ORDERS

BODY WORN AND IN-CAR CAMERAS

PURPOSE:

This policy establishes guidelines for the use of In-Car and Body Worn Cameras (BWC) so that deputies can record their interaction with the general public in accordance with state law (S.C. Code of Laws 23-1-240). Recording law enforcement encounters with the public aids in resolving complaints, prosecution of criminal cases, and documenting collisions and vehicle pursuits.

DEFINITIONS:

Body Worn Camera (BWC) - An electronic device worn on a person's body that records both audio and video data.

In-Car Camera – An electronic device affixed to the patrol car that records both audio and video data.

WHO WILL USE:

Deputies whose primary function is to answer calls for service and interact with the public, or deputies who have a reasonable expectation that they will interact with the public will utilize body worn and in-car cameras.

WHEN TO USE:

If equipped, a deputy will utilize a body worn and/or in-car camera upon arrival at a call for service or upon initiation of any other law enforcement or investigative encounter between a deputy and a member of the public, including, but not limited to:

1. The scene of all violent crimes
2. All traffic stops
3. Motor vehicle accident investigation when the parties to the motor vehicle accident are present
4. Suspicious person calls
5. Incidents involving public drunk or public disorderly conduct
6. Field contacts
7. Warrant service
8. Incidents involving emotionally disturbed persons
9. Incidents where weapons are present or alleged to be present
10. Incidents involving use of force
11. Incidents where an adversarial contact or a potentially adversarial contact may occur

Body worn and in-car cameras will only be utilized in conjunction with official law enforcement duties. They will not generally be used to record:

1. Communications with other Sheriff's Office personnel without the permission of the Sheriff or his designee,
2. Encounters with undercover personnel or confidential informants,
3. When on break or otherwise engaged in personal activities, unless for a direct law enforcement purpose.

Furthermore, deputies should use discretion where there is a victim of rape or sexual assault. Additionally, to respect the dignity of others, unless articulable exigent circumstances exist, deputies will try to avoid recording persons who are nude or when sensitive human areas are exposed.

There is no obligation to obtain consent from victims or witnesses prior to using a body worn or in-car camera during an interview. However, if asked about its use, deputies will be forthcoming about its use. At that time the deputy and the deputy's supervisor will make the decision whether to keep the camera on or turn it off. If the decision is made to discontinue the recording, the deputy must document the reason for discontinuation on camera and in a written report.

Deactivation of a BWC or In-Car Camera :

As soon as possible after a critical incident, a supervisor will respond to the scene and confirm that the incident has concluded and the scene is secured. The supervisor will then confirm that the deputy is no longer an active participant and if the deputy has responded with a use of force. If so, while in-view of the camera and without engaging in further questioning of the deputy, the supervisor will relieve the deputy of duty and deactivate the cameras, but leave the cameras in the possession of the deputy. At that time, the deputy may engage in conversations that are subject to privilege, unless the privilege is expressly waived prior to this occurring.

Cameras and storage mediums of deputies who are involved in such incidents will remain in the possession of the deputy until they are collected from them by a representative of OPS or SLED.

Deputies who arrive after the incident has concluded as back-up or support for the subsequent investigation should continue to record interactions with the public according to this policy. All videos of critical incidents by these deputies will be uploaded to the server at LEC as soon as possible.
