DIVISION OF JUVENILE JUSTICE SERVICES
POLICY AND PROCEDURES

Policy No: 01-12	Effective Date: 10-02-13	Revision Date: 09-28-16
Subject: Juvenile Food Service		

I. Policy Statement

Division staff working in programs and facilities participating in the National School Breakfast Program, National School Lunch Program and After School Snack Program shall comply with national nutrition standards and local health department food safety regulations.

II. Rationale

Child nutrition is an important component in treating juveniles who are in the custody of the Division. Nutritious and well balanced meals and snacks promote the physical, mental and emotional well-being of juveniles. Food preparation must be handled in a safe manner to protect juvenile and staff from the spread of disease and food borne illnesses. Additionally, adherence to national nutrition standards qualifies the Division for significant federal funding. Noncompliance can result in the loss of these funds to participating facilities, programs and the Division.

III. Definitions

“United States Department of Agriculture (USDA)” is the federal agency that regulates and administers the National School Breakfast Program, National School Lunch Program, and the After School Snack Program. The USDA also reimburses qualifying participants for meals that meet the prevailing requirements.

“National School Breakfast Program (NSBP)” is a program administered by the USDA. The goal is to provide juveniles with one quarter of their nutritional requirements for the day based on the “Dietary Guidelines for Americans”.

“National School Lunch Program (NSLP)” is a program administered by the USDA. The goal is to provide juveniles with one-third of their nutritional requirements for the day based on the “Dietary Guidelines for Americans”.

“After School Snack Program (ASSP)” is a program administered by the USDA. The goal is to provide juveniles additional nutrition.

“Point of Service” is the point in the meal service where it can be accurately determined that a federally reimbursable meal has been served to the juvenile.

“Reimbursable Meal” is a meal that meets the federal guidelines for reimbursement under the NSBP, NSLP or ASSP.

“Hazard Analysis and Critical Control Point (HACCP)” is a required plan that each participating facility must have in place that documents the safe storage, handling and preparation of food.

A severe allergy may constitute a disability if it affects a major life activity. In the event of a disability, kitchen staff shall make accommodations for juveniles.
- b. The determination of whether or not a juvenile has a disability which may restrict his or her diet shall be made by a licensed physician. A written statement signed by a licensed physician is required. This statement shall identify the juvenile’s disability; an explanation of why the disability restricts the juvenile’s diet; the major life activity affected by the disability; and the food or foods to be omitted from the juvenile’s diet and the food or food choice that shall be substituted.
